

batteryTask

```
graph LR; batteryTask[batteryTask] --> sendCAN_BMU_ChargeEN_State[sendCAN_BMU_ChargeEN_State];
```

The diagram illustrates a function call. A white rectangular box on the left is labeled 'batteryTask'. A dark blue arrow points from the right side of this box to a larger, gray rectangular box on the right. This gray box is labeled 'sendCAN_BMU_ChargeEN_State' in two lines of text.
