

batteryTask

```
graph LR; batteryTask[batteryTask] --> sendCAN_BMU_ChargeEN_State[sendCAN_BMU_ChargeEN_State];
```

The diagram illustrates a function call. A box on the left labeled 'batteryTask' has a blue arrow pointing to a larger box on the right labeled 'sendCAN_BMU_ChargeEN_State'. The 'sendCAN_BMU_ChargeEN_State' box is shaded gray, while the 'batteryTask' box is white.
